

General Regulations.

- Please hand in your solutions in groups of up to two people.
- Your solutions to theoretical exercises can be either handwritten notes (scanned), or typeset using \LaTeX . In case you hand in handwritten notes, please make sure that they are legible and not too blurred or low resolution.
- For the practical exercises, always provide the (commented) code as well as the output, and don't forget to explain/interpret the latter. Please hand in an exported PDF of your notebook.
- Submit all your files in the Übungsgruppenverwaltung, only once for your group.

0 Exam regulations

If you have collected more than **110 points** in the exercises and would like to earn credits for this course and take part in the exam, please remember to register for the exam on heiCO by July 14th. A repeat exam will be offered only to those who were sick on the date of the first exam (attestation required).

1 Your questions

Please go through the material covered in the lecture and write down at least three specific questions concerning topics that were not clear or that you did not understand. A subset of these questions will be addressed in the final lecture on July 18th. **(Bonus: 6 pts)**
